Levels of Care. . .

The Kansas Soldiers' Home offers two levels of care: Long Term Nursing Care and Domiciliary Care. The facility is fully accredited and surveyed by the Veterans Administration as a State Veterans Home. Status as a State Veterans Home means the Home has been approved by the United States Department of Veterans Affairs which our state has established primarily for veterans disabled by age, disease, or otherwise, and who by reason of such disability are incapable of earning a living. The Kansas Soldiers' Home Long Term Care must also meet compliance standards as required by the Kansas Department of Aging, which conducts yearly inspections of the facility.

1. Long-Term Nursing Care

Long-term nursing care is performed by or under the immediate supervision of a registered professional nurse and additional licensed and certified nursing personnel. This level of care includes administration of medications, treatments as prescribed by a licensed physician, and other nursing functions. Individuals who are acutely ill and in need of hospital care would not be eligible for nursing home care. Long-term nursing care provides assistance with activities of daily living required by an individual for continued well being.

- Long Term Care Services
- Assist in attaining physical, mental and social well being through special rehabilitative programs designed to maintain or restore patients to their highest level of functioning

2. Domiciliary Care

Domiciliary care provides shelter, food, medication administration and necessary services required by each resident to allow or maintain independence. Residents in this area may need assistance or supervision in activities of daily living to compensate for various limitations.

Domiciliary Care Services

- A. Assist eligible veterans who are suffering from a disability, disease, or defect of such a degree that incapacitates the veterans from earning a living.
- B. Assist in attaining physical, mental, and social well being through special rehabilitative programs designed to maintain or restore patients to their highest level of functioning.

Soldiers' Home Mission . . .

The Kansas Soldiers' Home mission is to enhance the overall well being of honorably discharged veterans and their dependents in an environment that supports the individuals' physiological, sociological and psychological needs.

Philosophy . . .

The philosophy of the Kansas Soldiers' Home is to provide quality long-term health care to the individual veteran, their spouse and eligible dependents by a dedicated professional staff. We provide an atmosphere that recognizes and promotes the uniqueness of every individual, in which each individual is treated with the respect and dignity to which they are entitled.

Priorities for Admission

1. Priorities for admission shall be made by the Admissions Staff based on a review of applications and the ability of the Home to provide the required patient care according to Federal and State regulations. The Superintendent will coordinate with the admissions staff in the prioritization of applicants as necessary.
2. Those with limited ability to pay for medical care will receive priority.
3. Transfers from other institutions, including transfers from the Kansas Veterans Home or VA medical centers shall have lower priority.

The Nursing Home Cost...

Determination of charges to veterans and qualifying dependents are based upon the ability to pay. While there are no income and net worth limitations, all applicants will need to disclose their income and net worth so that a determination can be made to assess charges. No veteran will be denied services because of the lack of income or excessive income. Therefore, some veterans and/or dependents may pay more or less than others, but in no event will a veteran or dependent pay more than the monthly-established charges for the level of care needed.

All applicants who seek admission to the Kansas Soldiers' Home must provide a complete accounting of all income and assets as requested on the Application for Admission. A waiver is available for veterans and eligible dependents that do not wish to release financial information to the facility and are willing to accept the maximum monthly charge for residency.

In comparison to private nursing homes, the Kansas Soldiers' Home offers a very affordable alternative living arrangement. Included in the monthly charges are:

- ❖ Medications provided by the VA formulary for qualifying residents.
- ❖ Incontinent supplies.
- ❖ Transportation provided to local physicians and the Wichita VA.
- ❖ 24 hour registered nurse on staff.
- ❖ Physician on staff.
- ❖ Contracted specialty services (rehabilitation and occupational therapy) work on site.

In addition, the United States Department of Veterans Affairs and the State of Kansas help defray the monthly charges. Eligible veterans, depending on their income, assets, and time of service, may be entitled to a Veterans Administration Non-Service Connected Pension. Pensions based on need may be available to surviving spouses

of deceased veterans with wartime service. For your convenience, a Kansas Commission on Veterans Affairs Field Service Representative is located in Pershing Barracks adjacent to the Outpatient Clinic to help identify your Veterans Administration Benefits based upon individual needs. **Any retroactive pension/compensation award shall be applied towards charges at the Home or any past due charges.**
